STEPS OF THE LOAN PROCESS

The steps below outline the loan process assuming qualification and approval. The final outcome may vary.

1 APPLICATION

Visit dhimortgage.com to get started and find out how much you may be eligible to borrow to buy a home. You can rest assured that your information is safe and secure.[1] Your Mortgage Loan Originator will explain your options and help you find the loan that best fits your needs.

2 PROCESSING

A Loan Processor will work closely with your Mortgage Loan Originator to verify your employment, assets, and credit history, and gather all the information needed for underwriting. Please remember to provide any requested documents within 24 hours to keep the process moving!

3 UNDERWRITING

An Underwriter will review your file for credit approval. They might request additional documents.

4 CREDIT APPROVAL

At this time, your loan has been conditionally approved, pending receipt of additional requested items. Your file will go back to Processing for gathering of conditions. Remember – response time is important!

5 RESUBMISSION & FINAL APPROVAL

Most loans are resubmitted to underwriting before final approval. This should be expected as a normal part of the process. This is the final stage of your loan before closing, and documents are being prepared for the final Closing Disclosure.

6 CLOSING

You and your Title Agent will schedule a convenient time for your closing. Your Loan Processor or Mortgage Loan Originator will tell you the amount needed for closing. You will either wire funds or bring a cashier's check made out to your Title Company or Attorney's office. Once the loan is funded, you'll receive the keys to your new home. Congratulations, homeowner!
